Dear Tom and Harley:

I just wanted to take the time to thank you both and the team that you put together to work on our building in Sunrise. It was a great pleasure working with Brian Sudduth and Wayne Hanaka in the early phase of the project and then with Vince Campo, Brian Silver and Larry Kazman through the actual construction and final days of the project. Switching to a green building so late in the process was also a challenge but everyone stepped up and it worked out great. The entire process was a learning experience for me.

With your guidance we built an awesome building and I appreciate all the help I received.

Sincerely,
