## Reflective Vinyl Decals - Fort Collins, CO

*"I recently started a business in a new city and had no idea who to call. After meeting Bruce I decided to give Connecting Signs a try. I've used another sign company in another state for 10 years with great results, so trusting someone new was a jump. I'm glad I did. Bruce and his staff are excellent. They took customer service to a new level. From the initial contact to final product they made the process easy. Their design staff helped me decide exactly how to layout the signage for a new service truck and their product knowledge was spot on. The final product exceeded my expectations. I would highly recommend Connecting Signs to anyone that wants to promote their business and plan on using their services in the future any time I need their help. Thank you Bruce, for the chance to work with your company." - Andrew A. MARCH 2013*

*"These guys popped up here in Fort Collins maybe a year ago and have since been my company's "go to" for signage. So far they've mostly done banners for us for events and trade shows but the quality and service has been superior to their competition. *"Bruce and the Connecting Signs staff have been a pleasure to work with. I have been inside many businesses in my profession and I have to say that their shop is one of the most professional and organized shops I have seen. Organization and presentation is a must if you want to deliver a product or service with as few hiccups as possible. Connecting Signs sets the bar high when it comes to delivering a premium product quickly and efficiently. I am excited to have more branding for our business to help get our name out there as much as we can. I have also worked with one of their graphic designers on a small project and enjoyed the artistic insight that was provided without an "elitist attitude" that I have felt in the past from some graphic designers. # Riley Liam Construction - Chicago, IL

*"The 4'x7' banners I ordered from connecting signs turned out excellent. I provided a rough figure of what I wanted and they made the banner of my sons contracting firm look very professional. I ordered the signs late and Bruce's team came through in two days from my request with the signs ready to hang at their grand opening of the most recent construction renovation. Thanks much to Connecting Signs for a sign that allowed me to show my son how proud I was of his efforts."*
