

January 5, 2015

To Whom it May Concern,

We recently had our roof replaced by Major League Roofing. This was an unnerving situation for our board and staff; as none of us had experience with replacing a roof of this size, being also comprised of several different materials. We chose Jason Hamilton and his company to carry out the entire scope of work and guide us through this difficult process. His reputation in the community was solid, and his personality and professionalism were just what we needed to ease our minds as we entrusted someone with the integrity of our buildings.

Jason and his staff were prompt, personable, professional, and patient with us from start to finish. We found Jason to be honest, knowledgeable, and excellent in his communication with us through the entire process. The work that was performed was done with excellence, and we appreciated how clean he kept our property despite the enormity of the task and the number of workers on the job site. To say we were pleased with Jason Hamilton and with Major League Roofing and the finished work would be a huge understatement.

We sincerely recommend Jason Hamilton, both personally and professionally. No doubt, he will exceed your expectations with whatever task you may present to him and his excellent company. Please feel free to contact me.

Sincerely,

James Morrison
