For nearly 100 years, The Blue Book has been bringing buyers and sellers together – and there’s no better opportunity than this local General Contractor Showcase!

This FREE, value-added service will provide your company with direct opportunities to meet and qualify local subcontractors for current and future projects.

The Blue Book will promote this exclusive networking event to every subcontractor and supplier working in your local area. Promotion of the event will be especially targeted to subcontractors located within close proximity to your upcoming project locations.

All General Contractors will be provided with an exhibit space and table for distribution of company prequalification forms, project information, brochures, etc.
