Re: Paramount Contracting / Sheetz Operations Center & Daycare

To Whom It May Concern:

It has been my pleasure to work with Paramount Contracting over many years on our projects, especially on the recently completed Sheetz Operation Center & Daycare project in Claysburg, PA.

On this project they again have showed their quality workmanship and commitment to a safe work environment for all. The Sheetz project was a very challenging 115,000+ SF Office Complex & adjacent 13,000+ SF Daycare facility with several features for the gypsum assemblies, including; exterior structural framing, four story atrium, large meeting rooms, training labs, office areas, food service areas, dining hall, etc.. all with special wall features, bulkheads, etc... Paramount Contracting completed all the light gauge metal framing, gypsum board installation and finishing on the project.

Paramount Contracting with their hard work and effort met all the challenging schedule milestones and contributed to the completion of the project ahead of schedule, along with excellent coordination and working well with other trades.

The support from the office to the field has been impressive and the response to address any issues was handled in timely and professional manner. Paramount Contracting was an advocate from the start of the project, during the submittal process, construction activities, safety and through the completion of the project.

Therefore, I have no hesitation in recommending Paramount Contracting to any Owner or Contractor and look forward to working with the Paramount Contracting team on future projects.

Please feel free to contact me directly if you need any further information.

Sincerely,

Dave Weidel
