RE: Water Street Mission Makeover Project

Dear Tim,

It was a pleasure to work with Paramount Contracting, Inc. on the WSM Mission Makeover project. This was a 6 week project condensed to a 1 week construction duration which presented many challenges. During the course of the project Paramount was able to work collectively with our team on site to meet our overall expectations for completion.

Among the tight schedule and the 24/7 shifts, Paramount Contracting was a huge asset to the team and to the overall success of the project. It was truly a team and community effort to see this project through from start to finish and we value your partnership in this project.

Paramount Contracting should be commended for working within the established budget and schedule for this project while maintaining the quality of construction that Warfel expects. We look forward to the opportunity of partnering with you in the future.

Sincerely,

A handwritten signature in blue ink that reads "Ramsey Sybel". The signature is fluid and cursive, written in a professional style.
